The Vidya Bharati Institute of
Management & Technology
is an online education institute that
provides the best opportunity.

info@vbimt.org.in

www.vbimt.org.in

In this environment of severe economic change and competition, there is a need for current knowledge that is easily accessible even to those who normally avoid the topic, and knowledge that truly claims to be up to date must recognize & account for the substantive changes that are occurring in the way. Successful people are open-minded and understand that views created to deal with the conditions of the past are now obsolete. They don't rigidly adhere to those ideas even when times have changed. They grasp the fact that we have reached a new phase and that better attitudes must be established or adopted. Attitudes are never right or wrong in absolute terms, simply more or less appropriate. Programs in management and technology that were formerly offered by the government have become more and more significant on a worldwide scale. As a result, it is important for the public, in general, to become more knowledgeable about management and technology in a variety of disciplines. Long-standing institutional attitudes that were appropriate for previous candidates must be changed as well since the circumstances in which they were appropriate are changing for the better. This is the true purpose and meaning behind the established and recently fastened management values, technical updates, and arrangements. Making it as comprehensive but user-friendly for students as possible. Therefore, regardless of your position in greater management, development, and changes. Additionally, we hope that it will enable you to execute your roles moving forward.

PROFILE

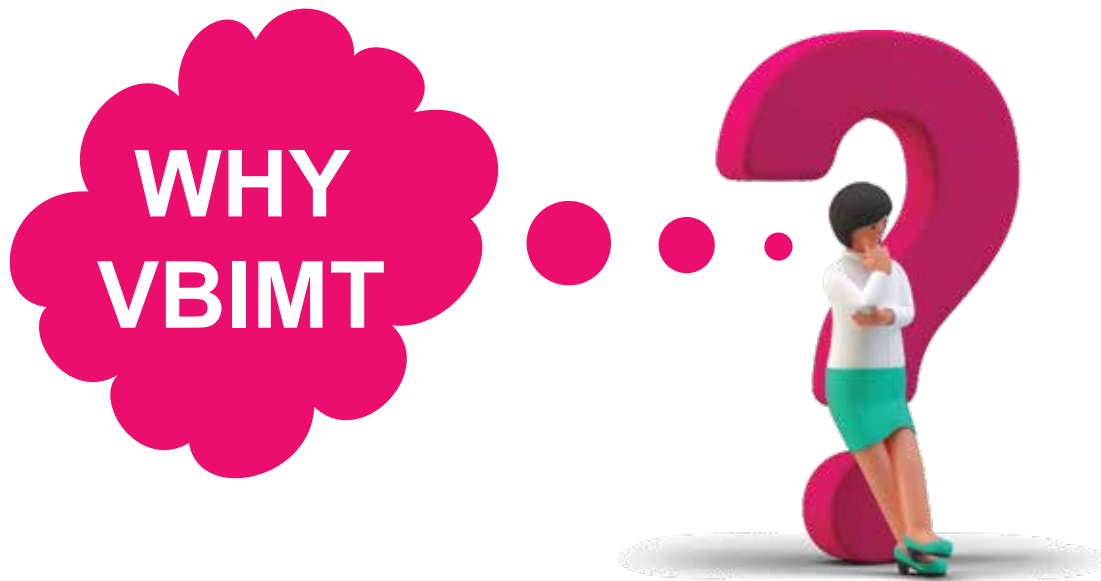

The Vidya Bharati Institute of Management and Technology is a higher education institution with a global certificate registration (ISO) 9001:2015 certification. The objective of Vbimt, a distance learning institution for management & technology, is to prepare students to manage and administer the dynamic, ever-changing nature of global business. Our main concern is making sure that our students obtain an education that is not only of the finest quality but also relevant to the modern economy and the highly competitive global market. Our program blends a thoroughly researched curriculum with techniques and principles that are pertinent to the industry. VBIMT provides students with a distinctive blend of theoretical and cutting-edge inputs that helps them become technically equipped professionals. Our faculty provides students with the most up-to-date industry-focused technological skills to help them better grip the labor market. In order to accomplish the following goals, Vbimt was formed under the auspices of the Wales Educational Trust, which was registered in 2000. improve students' careers in business management and technology. All people who want access to high-quality education can do so by democratically bringing industry-focused higher education to the students' homes. offering programs with a focus on the industry while giving a professional, technical, and vocational perspective to the course while promoting and growing India's distance learning and online education systems Implementing new types of interactive, inventive collaborative, and user-friendly educational systems will raise educational standards to meet industry needs.

VBIMT's online learning programmes pave the path for rapid success in life. These courses include case studies, concepts, and practical training that exposes students to important management principles, technical abilities, and business concepts. By enhancing their productivity, capacity to develop business policies and handle technical data, strategies, and their implications for the firm, this helps them get started as "managers" or "team Leaders." Fast-track courses allow students to maintain contact with instructors and fellow students while upgrading their skills and knowledge for success. The best of international technologies, management principles, practises, and managerial/team leading functions are subjected to the students as well as corporate entities via the use of online exams, which students can choose to take in order to save time and take three times if they select the incorrect answers. However, pursuing cutting-edge technical and managerial degrees necessitates intellectual strength, maturity, and a willingness to put in a lot of effort. Those programmes will be a journey of discovery leading to professionally meaningful jobs for those endowed with open minds, the application of methodologies, and the drive to succeed. We extend an invitation to everyone who appreciates our vision, objectives, and purpose to work with us to create a new cadre of management and technical professionals who will wish to contribute to the development of this period of economic liberalisation and globalisation.

MISSION

- Vision shaping a better future for making by developing effective and responsible individuals & organizations.
- Providing professionals skills in the shortest time at a much affordable cost to enrich careers.
- Unique education methodology through specially designed fast track programs.
- Value-based management and technical education for due recognition.
- Upgrading the study materials to suit the industries.

VBIMT's online courses pave the path for rapid success in life. These courses provide more exposure to key business principles, technical abilities, and managerial specialties through the use of concepts, case studies, and industrial training. By increasing their productivity, capacity to develop business policies, and handling Technical Data, Strategies, and their implications for the organisation, this helps them in starting off as "Managers" or "Team Leaders."

Those with short time who want to improve their knowledge and abilities for success can enroll in fast-track courses where they can maintain contact with the instructors and other students. To save time, they can choose to take the exam at home, and if they choose the wrong answers, they can take it three times.

We invite everyone who shares our vision, goals, and purpose to work with us to create a new cadre of managerial and technical professionals who want to and will actively contribute to the development of this period of economic, liberalization, and globalization.

VBIMT ADVANTAGE

Brings together globally recognised courses that are authorised by the Bangalore government (India). It is recognised as a quality training provider in business & technical courses by the globus certificate of registration (ISO) 9001:2015. VBIMT is One of the top educational autonomous institutions in the nation with high standards.

To provide a deeper knowledge of subjects by removing their often asked questions, the institute offers weekend classes to its management students at its center. If enough students sign up, weekend lessons can be offered in the last quarter of each session. Students can choose to take written exams in person or online using a case-based method. If there are any circumstances, the outcome will be posted online. In each stream, the institution reserves 15% of the seats for admission to SC, ST, OBC, Handicapped, Military Personnel, Kashmiri Migrants, and War Widow's Children. They are also eligible for a 10% fee discount, but only once their pertinent documentary proof has been verified.

The organization makes the ultimate decision about this matter. The institute also provides merit-based and need-based students with fee waivers of 50%. The VBIMT placement cell also aids in matching up its students with the appropriate placement. Because of this, graduates of our authorized, approved courses may be sure that they have a nationally and/or internationally renowned degree that will improve their employment prospects.

Course Benefits:

- At the completion of the course, the candidates will possess in-depth coverage of subjects.
- To understand the importance of functional areas in the operations of an organization.
- Formulation of business policies, strategies & their implications for better results.
- To understand the driving force- boom, recession & recovery to modify the plans as per need of the hour
- To develop the art of effective communication & presentation.
- To understand the importance of operations management & its utility factor for smooth function of the business.
- How to apply the knowledge of the concept, its tools & techniques in a given situation.
- The VBIMT program is designed as a career-oriented professional & technical program. The body of knowledge, curriculum design, education methodology, examination & the evaluation process, all have trust in improving & evaluating the skills of the students to enable them to build successful careers.
- The VBIMT programs attempt to blend Indian & International content & make our educative & professionally rewarding. We are regularly upgrading our course contents to meet the daunting challenges of the millennium. Our students cultivate human traits & values & organizational loyalty this goes a long way in making a niche for themselves in the fiercely competitive corporate world..

COURSE	ELIGIBILITY	DURATION	FEE (INR)
Certificate in Computer Fundamentals	10th	6 Months	20,000/-
